THE MANAGING DIRECTOR
AEA – PATCHING
P O BOX 30417 – 00100
NAIROBI – KENYA

ATTENTION MR. NICK GITHINJI

REF: INTRODUCING AEA PATCHING TECHNOLOGY – AN INVITE TO DO A DEMO ON THE NEW TECHNOLOGY FOR POTHOLES ROADS REPAIR WORKS ON TUE 10TH MAY 2016 @ 10am

Having seen the above new technology on potholes roads repair through the media where u did demos all over the country, we would like officially invite u to do a demo in Kitale town as per above.

The AEA Patching Road Repair Solution while being innovative and more durable than the Conventional Road Patching Method, is also significantly faster. With an average Pothole Repair Time of 3 – 5 Minutes the process saves a significant amount of time thus making it more Traffic-friendly as well as more efficient in repairing roads thus we would like to employ the same in maintenance of our roads within Trans Nzoia County

I look forward to a meeting your team this coming Tuesday 10th May 2016 starting at 10am in the Governors Boardroom as u seek to show us an opportunity to assist our County in lowering roads maintenance costs using AEA-Patching Velocity technology.

Yours Sincerely,

Eng. P. Wasike,
Chief Officer
